

ANGLICAN MISSIONS

# COVID-19 FOOD SECURITY

For many of us, food is abundant and safe.  
For many Fijians, it isn't.

## PROJECT GOALS:

Along with the increased occurrence of adverse weather effects caused by climate change, Covid-19 has significantly exacerbated food scarcity in Fiji, as unemployment rates have skyrocketed, and many people have returned to rural lands.

This project will improve the quantity and quality of food produced in local communities, particularly the communities who have suffered greatly as a result of Covid-19 related job losses.
