

PRAY THE NEWS

The situation in Myanmar has taken a grim turn. Fighting is spreading from the northern Shan State to other regions, plunging the country deeper into turmoil.

TODAY, WE PRAY THE NEWS FOR MYANMAR:

Prayer points:

For a return to peace across the country and that the rich diversity of people and tribes would know justice, protection and reconciliation

That those people displaced would be safe to return to their homes and that children would be able to access education

On October 27, an alliance of ethnic armed groups launched a coordinated offensive against regime forces in northern Shan State, seizing several towns and overrunning dozens of military outposts.

The escalating conflict has forced more than 3 million people from their homes, a "bleak milestone" for Myanmar, according to the United Nations.

For the provision of adequate humanitarian resources and for the protection of all those involved in their delivery
